NUTRITIONAL ANALYSIS

Crude protein	%	13
Including digestible protein (MADC)	%	9.3
Starch	%	18
Crude fat	%	5
Crude fiber	%	15.3
Copper TOTAL	mg	38
including Copper chelates	mg	11

VITAMINS

Vitamin A	UI	12 000
Vitamin D3	UI	1 850
Vitamin E	UI	300

MACRO-ELEMENTS

Calcium	g	11
Phosphorus	g	4.6
BACA		176

USEFUL INFORMATIONS

Energy(UFC)	MJ/Gross Kg	0.82
	MJ/Kg Dry Matter	0.92
Digestible	MJ/Gross Kg	11.60
Energy (ED)	MJ/Kg Dry Matter	13.10

The above results are not contractual but indicative. You must refer to the label to get the whole information about this product.

Feeding Guide :

From 0,8 kg to 1,2 kg per 100 kg of live weight. It is advisable not to exceed 6 liters per day, taking an estimated 4 kg.

It can be used alone or in combination with another feed more stimulating depending on the degree of sensitivity and/or temperament.

In addition to the individual variability of requirements which may vary by +/- 20%, the quantities of feed will be adapted to the nature of the fodder, grazed or preserved, and their availability must never be less than 1 kg per 100 kg of live weight.

Artichoke

- * It favours the elimination through the kidney and digestive,
- * It also has an hepatobiliary drainage fonction.

Boldo

- * Depurative action.

Curcuma

- * Antioxidating and anti-inflammatory effect.

Aloe vera

- * It favours the digestive transit,
- * Fights against the apathy, slimming, inflammatory and respiratory syndromes,
- * It also favours the repair and recovery of tissues.

Badiane

- * Anti-stress and anti-viral action.
