

RACING CUBE POWER

n°13

PELLETS FEED SUPPLEMENT TO FODDER

Recommended for :

- ▶▶ Jumping (CSO),
- ▶▶ Eventing (CCE),
- ▶▶ Flat races,
- ▶▶ Excess of nerve impulse.

Target :

- Digestive safety & High energy concentration,
- Promotes the development and the integrity of the muscle,
- Resistance to effort & tonicity.

Feeding Guide :

From 0,8 kg to 1,2 kg per 100 kg of live weight.

It can be used alone or in addition to another feed more soothing or stimulant according to discipline and temperament.

In addition to the individual variability of requirements which may vary by +/- 20%, the quantities of feed will be adapted to the nature of the fodder, grazed or preserved, and their availability must never be less than 1 kg per 100 kg of live weight.
